Memorandum

To: Captain B. Roska S0878
 Division Commander
 Bureau of Internal Oversight

From: Sergeant M. Rodriguez A9047
 Audits and Inspections Unit
 Bureau of Internal Oversight

Subject: Summary of Findings Report
 May, 2017
 Computer Aided Dispatch (CAD) and Alpha
 Paging Messaging Inspection BI2017-0053

Date: 06/05/17

The Bureau of Internal Oversight (BIO), Audits and Inspections Unit (AIU) will conduct inspections of the Computer Aided Dispatch (CAD) and Alpha Paging Systems on an ongoing basis. The purpose for the inspection is compliance with Office Policies and to promote proper supervision. To achieve this, inspectors will select for review the CAD/Alpha Paging entries for 10 randomly selected days for the month being inspected. To ensure consistent inspections, the *CAD/Alpha Paging Inspection Matrix* developed by the AIU will be utilized.

Matrix Procedures:

A random sample containing ten of the 31 days from the month of May 2017 was generated using the research randomizing program www.Randomizer.org. The CAD messages transmitted during the selected inspection dates were retrieved and viewed directly from the CAD database. The Alpha Paging messages transmitted during the selected inspection dates were provided to the AIU by the MCSO Technology Bureau in an Excel spreadsheet. The CAD and Alpha Paging messages transmitted during the selected sample dates were uniformly inspected utilizing the CAD/Alpha Paging Inspection Matrix.

Criteria:

- MCSO Policy CP-2, *Code of Conduct*
- MCSO Policy CP-3, *Workplace Professionalism*
- MCSO Policy CP-8, *Preventing Racial and Other Biased-Based Profiling*
- MCSO Policy GM-1, *Electronic Communication and Voicemail*

Conditions:

Collectively there were a total of **21,774** CAD and Alpha Paging messaging entries (21,737 CAD and 37 Alpha Paging) sampled, which were transmitted by MCSO personnel during the selected dates available for inspection.

The inspection found that **21,774**, or **100%**, of the inspected CAD and Alpha Paging messaging entries in compliance with Office Policies GM-1, *Electronic Communications and Voice Mail*, CP-2, *Code of Conduct*; CP-3, *Workplace Professionalism*; and CP-8, *Preventing Racial and Other Biased-Based Profiling*.

A historical comparison of the last six months of CAD/Alpha Paging inspections indicates that the compliance rate for the use of these electronic communication systems has been 100% in five of the last six months.

Recommendations:

It is recommended that supervisors continue to provide mentoring to employees in:

- The contents of MCSO Policy GM-1, *Electronic Communication and Voicemail*.
- MCSO Policies CP-2, *Code of Conduct*, CP-3, *Workplace Professionalism*, CP-8, *Preventing Racial and Other Biased-Based Profiling*, as they relate to electronic communications.
- Continued effort should be made by supervisory staff to remind employees to use discretion and good judgment when sending electronic communications in compliance with MCSO Office Policy.

Action Required:

With the resulting 100 % compliance for Inspection *BI2017-0053*, no BIO Action Forms are required.

Notes:

All supporting documentation (working papers) is included in the inspection file number *BI2017-0053* and contained in IA Pro.
