**February 2024 Traffic Stop Data Inspection**

Inspection Report# BI2024-0014

**Background:**

The Audits and Inspections Unit (AIU) of the Bureau of Internal Oversight (BIO) inspects Traffic Stop Data collected in the TraCS system on a monthly basis. The purpose for the inspection is to ensure compliance with Office policies and to promote proper supervision. A total of 35 traffic stops are selected each month for review. To achieve inspection results the inspector will utilize the TraCS system, JWI, I-Net Viewer, Body-Worn Camera video, ([www.Evidence.com](http://www.Evidence.com)), and Communication Recordings. These entries will be uniformly inspected utilizing a matrix developed by the Bureau of Internal Oversight. Additionally, a JWI inquiry will be made on all deputies involved in the traffic stop, if needed, to determine if a license and/or warrants check was run during the stop.

**Matrix Procedures:**

Utilize the *Traffic Stop Data Matrix* to inspect and ensure each traffic stop reviewed is within compliance with Office policies. Each Matrix Inspection Element is listed below in the results section of this report.

**Criteria:**

- MCSO Policy EA-3, Non-Traffic Contacts
- MCSO Policy EA-11, Arrest Procedures
- MCSO Policy EB-1, Traffic Enforcement, Violator Contracts, and Citation Issuance
- MCSO Policy EB-2, Traffic Stop Data Collection
- MCSO Policy EB-11, Vehicle Impound 3511
- MCSO Policy GE-3, Property Management and Evidence Control
- MCSO Policy GJ-3, Search and Seizure
- MCSO Policy GJ-35, Body Worn Cameras

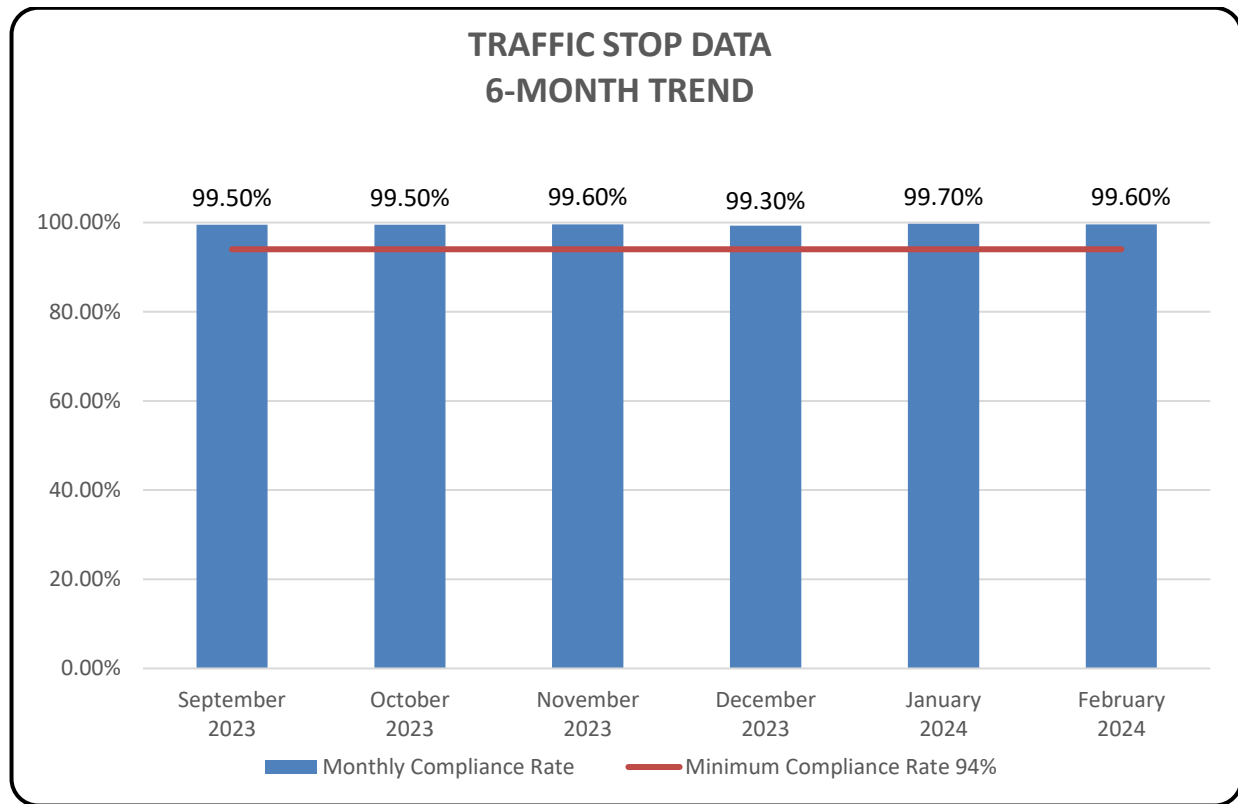

**Conditions:**

The MCSO reviewed 35 randomly selected traffic stops made during the month of February 2024. Additionally, 10 of the 35 were selected for Body-Worn Camera review.

**Results:**

Each Traffic Stop will be counted as one inspection and all applicable matrix criteria inspection points will factor into an over-all compliance score. Example: If one Traffic Stop contains 34 inspection points (4 not applicable) and 2 deficiencies it will count as one Traffic Stop Inspection with a compliance score of 94.00%. The over-all compliance score for the monthly inspection will be the average score of the 35 stops reviewed.

The compliance rates of the provided traffic stop sample, utilizing the 34-inspection criterion, resulted in an overall average compliance rate of **99.60%** for February of 2024, as illustrated in the graph below.
